DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: Claims 17-41 are allowed.

Claim 17: Prior art of record does not teach a apparatus for enabling the sending of an encrypted signal and a multi-value digit code generator for generating a multi-value digit code responsive to the variable binary code, wherein each multi-value digit has four or more possible values and transmitting apparatus for modulating the radio frequency oscillatory signal with the multi-value code to produce a modulated multi-value digit coded variable radio frequency signal for operation or control of a secure actuator.

Claims 18-24 are allowed because of dependency.

Claim 25: Prior art of record does not teach multi-value digit code generator for converting generated variable binary code to a multi-value digit code, wherein each multi-value digit has four or more possible values; a transmitter for modulating a transmitted radio frequency signal with multi-value digit code; a controller responsive to a positive comparison of received binary code and a reference variable binary code and update apparatus responsive to positive comparison for updating reference variable binary code according to received binary code.

Claims 26-41 are allowed because of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
